*The Sierra School at Eastern is a nonpublic special education school serving K-8 students facing learning, language, and social challenges. As an invaluable member of a network of schools comprising one of the leading specialized education companies in the country, the Sierra School puts over two decades of experience to work on behalf of our student body, which benefits daily from our unique educational approach that combines an innovative instructional model, effective behavior modification techniques, and expert mental health services to increase academic awareness, develop social skills, and cultivate appropriate classroom behavior.*

*Our comprehensive state-approved curriculum adheres to all state standards and requirements, and it is delivered by an incredible team of teachers whose dedication to their field is matched only by the skill with which they competently and compassionately instruct our students, supported by state-of-the-art tutorial software and cutting-edge educational modalities. Our school is also deeply committed to creating a solid sense of community on our campus, so each year we expand our menu of fun, student-centered activities, like School Spirit Day, Math Day, our Sock Hop, our annual Winter Festival, and various fund-raising events.*

*The overarching goal of the Sierra School is to expedite the transition back to the public school system and mainstream society. So we're always looking for new ways to customize our programs to meet individual needs, highlight student strengths, build their confidence and self-esteem, and guide them toward reaping the rewards of personal success — in school, at home, and in the community.*
